ABOUT ME

In addition to my pharmaceutical background, I am actively building my IT expertise, focusing on modern technologies such as HTML, CSS, Java, TypeScript, React, and Next.js. I am also exploring the field of artificial intelligence and its applications, integrating my healthcare knowledge with tech skills to contribute to innovative solutions in health technology. This dual expertise positions me to bridge the gap between healthcare and IT, driving progress in patient care technology and digital health solutions.

Pharm.D

Learning IT Skills as a pharmacist represents an exciting and forward-thinking career shift. By gaining expertise in programming languages, web development, and AI technologies, pharmacists can bridge the gap between healthcare and technology, opening up opportunities in health tech, digital health solutions, and innovation in pharmacy practice. This blend of healthcare knowledge and IT skills empowers professionals to contribute to the development of patient-centric software, enhance healthcare data analysis, and improve digital patient engagement platforms.
